

Flux Power Selected as a Recipient of the SDCE Green Supply Chain Award for 2020

Vista, CA – December 15, 2020 – Flux Power Holdings, Inc. (“Flux Power”) (NASDAQ: FLUX), a developer of advanced lithium-ion industrial batteries for commercial and industrial equipment, today announced that *Supply & Demand Chain Executive*, the only magazine in the supply chain industry covering the entire global supply chain, has selected Flux Power as a recipient of the SDCE Green Supply Chain Award for 2020.

The Green Supply Chain Award recognizes companies making green or sustainability a core part of their supply chain strategy and are working to achieve measurable sustainability goals within their own operations and supply chains. The award also recognizes providers of supply chain solutions and services assisting their customers in achieving measurable sustainability goals.

“We are honored to be recognized as one of the Green Supply Chain Award recipients. Our zero-emission battery packs are key component in a sustainable supply chain,” said Ron Dutt, Flux Power’s CEO. “We will continue to lead the adoption of lithium-ion solutions for customers who believe in reducing their carbon footprint.”

“This year’s 13th-annual award recognizes small, mid-size and large enterprises that leveraged green practices and solutions to further drive sustainable improvements in their supply chain,” says Marina Mayer, editor-in-chief of *Supply & Demand Chain Executive* and *Food Logistics*. “From software solutions to transportation management systems to several other initiatives designed to reduce carbon footprint and improve the re-use of materials, sustainability continues to rank as a key component to a stronger, safer and more efficient supply chain.”

About [Supply & Demand Chain Executive](#)

Supply & Demand Chain Executive is the executive’s user manual for successful supply and demand chain transformation, utilizing hard-hitting analysis, viewpoints, and unbiased case studies to steer executives and supply management professionals through the complicated, yet critical, world of supply and demand chain enablement to gain competitive advantage.

About [Flux Power Holdings, Inc.](#)

Flux Power designs, develops, manufactures, and sells advanced rechargeable lithium-ion energy storage solutions for lift trucks and other industrial equipment including airport ground support equipment (GSE), energy storage for solar applications, and industrial robotic applications. Flux Power’s LiFT Packs, including the proprietary battery management system (BMS), provide customers with a better performing, more environmentally friendly, and lower total cost alternative, in many instances, to traditional lead acid and propane-based solutions.
