

Flux Power Announces Record Quarterly Revenue of \$6.5M for Second Quarter of FY 2021; Increase of 79% YOY

Investor Conference Call at 4:30 PM ET

Vista, CA – February 11, 2021 – Flux Power Holdings, Inc. (NASDAQ: [FLUX](#)), a developer of advanced [lithium-ion industrial batteries](#) for commercial and industrial equipment, today reported financial results for its second quarter of fiscal year 2021 (Q2'21).

Financial Highlights:

- **Q2'21 revenue** grew 79% to a record **\$6.5M** compared to Q2'20 revenue of \$3.6M.
- **Q2'21 gross margin** increased to **23.0%** compared to 9.0% in Q2'20.

Strategic Highlights:

- Received initial orders from a global food producer.
- Continued business expansion with Beam Global by supplying battery packs for solar energy storage in their mobile EV charging stations.
- Executed cost reductions and design related actions to improve gross margins.
- Announced [three patents pending](#) for advanced lithium-ion battery technology.
- Developed the next generation LiFT Pack M24 for Class III end riders and center riders, to be launched at the ProMat DX material handling tradeshow.
- Received UL Listing for battery packs for narrow aisle walkies and end riders.

“The Flux Power team worked hard last quarter to deliver record revenue despite the COVID-19 pandemic,” said Flux Power CEO Ron Dutt. “Our expanded UL Listings and three patents pending support our goal to lead the adoption of lithium-ion solutions for Fortune 500 customers.”

Q2'21 Financial Results

Revenue: Q2'21 revenue increased by 79% to \$6.5M compared to \$3.6M in Q2'20, driven by sales of larger LiFT Packs and stationary power applications.

Gross Profit: Q2'21 gross profit improved to \$1.5M compared to a gross profit of \$326K in Q2'20 principally reflecting higher sales volumes and gross margin improvements.

Selling & Administrative: Expenses increased to \$3.1M in Q2'21 from \$2.2M in Q2'20, reflecting expense for our \$50M shelf registration and “At-The-Market” offering, D&O insurance increases, increased sales commissions, and increased customer support expense from over 8,000 battery packs in the field.

Research & Development: Expenses increased to \$1.6M in Q2'21, compared to \$1.0M in Q2'20 reflecting our continued rollout of new product models, third party expense for added UL Listing certification, UN38.3 certification for transportation, and further development of our telemetry products.

Net Loss: Q2'21 net loss increased slightly to \$3.4M from a net loss of \$3.3M in Q2'20, principally reflecting higher operating costs offsetting gross profit increases and lower interest expense from debt conversions of \$2.2M.

Fiscal Year 2021 Outlook

Our business momentum continues on track, with our seasonally slower quarter which ended September 30 behind us. While the COVID-19 pandemic created caution with lockdowns and increased infection rates in the quarter ended December, logistic and material handling needs were not significantly impacted.

Despite restrictions from the COVID-19 environment, we made progress on acquiring new customers, with initial orders from several Fortune 500 companies.

Our product expansion plans are on track with new models, added UL listings and OEM support; these developments expand our product platform for large fleets.

CEO Ron Dutt added, "The strong activity in the electrification sector during Q2'21 provides clear signals on sustained interest in renewable energy and environmentally clean sources of power for equipment. Flux Power is well positioned to serve this growing demand."

Conference Call

Management will hold a conference call today starting at 4:30 PM ET. Investors and analysts interested in joining the call are invited to dial (833) 428-8374 or (270) 240-0543. The conference ID is **2178397**. A recording of the conference call will be uploaded to the Flux Power website once it is available.

About Flux Power Holdings, Inc. (www.fluxpower.com)

Flux Power designs, develops, manufactures, and sells advanced lithium-ion energy storage solutions for lift trucks, airport ground support equipment (GSE), stationary energy storage, and other industrial and commercial applications. Flux Power's "LiFT Pack" battery packs, including its proprietary battery management system (BMS), provide its customers with a better performing, higher value, and more environmentally friendly alternative as compared to traditional lead acid and propane-based solutions.

Cautionary Statement Regarding Forward-Looking Statements

This release contains projections and other "forward-looking statements" relating to Flux Power's business, that are often identified by the use of "believes," "expects" or similar expressions. Forward-looking statements involve a number of estimates, assumptions, risks and other uncertainties that may cause actual results to be materially different from those anticipated, believed, estimated, expected, etc. Such forward-looking statements include the development and success of new products, projected sales, Flux Power's ability to timely obtain UL Listing for its products, Flux Power's ability to fund its operations, distribution partnerships and business opportunities and the uncertainties of customer acceptance of current and new products. Actual results could differ from those projected due to numerous factors and uncertainties. Although Flux Power believes that the expectations, opinions, projections, and

comments reflected in these forward-looking statements are reasonable, they can give no assurance that such statements will prove to be correct, and that the Flux Power's actual results of operations, financial condition and performance will not differ materially from the results of operations, financial condition and performance reflected or implied by these forward-looking statements. Undue reliance should not be placed on the forward-looking statements and Investors should refer to the risk factors outlined in our Form 10-K, 10-Q and other reports filed with the SEC and available at www.sec.gov/edgar. These forward-looking statements are made as of the date of this news release, and Flux Power assumes no obligation to update these statements or the reasons why actual results could differ from those projected.
