

Flux Power Reaches a New Milestone of 10,000+ Battery Packs Shipped to Customers

Vista, CA – July 30, 2021 – Flux Power Holdings, Inc. (NASDAQ: [FLUX](#)), a developer of advanced lithium-ion industrial batteries for commercial and industrial equipment, today announced that over 10,000 battery packs have been shipped to customers.

Flux Power's lithium-ion battery packs are used by customers throughout North America in applications such as [material handling equipment](#), airport [ground support equipment](#) (GSE), and stationary energy storage.

"We are excited to reach this milestone at Flux Power," commented CEO Ron Dutt. "We believe these 10,000+ battery packs are a testament to the contributions of our employees and the customer demand for innovative and safe lithium-ion solutions."

About Flux Power Holdings, Inc. (www.fluxpower.com)

Flux Power designs, develops, manufactures, and sells advanced lithium-ion energy storage solutions for lift trucks, airport ground support equipment (GSE), stationary energy storage, and other industrial and commercial applications. Flux Power's battery packs, including its proprietary battery management system (BMS), provide its customers with a better performing, higher value, and more environmentally friendly alternative as compared to traditional lead acid and propane-based solutions.
