

Flux Power Launches Next Generation Lithium-Ion Battery For Walkie Pallet Jacks - LiFT Pack S24

Vista, CA – March 9, 2020 -- Flux Power Holdings, Inc. (OTCQB: FLUX), a developer of advanced lithium-ion batteries for commercial and industrial equipment including electric forklifts and airport ground support equipment (GSE), announced the launch of the LiFT Pack S24 lithium-ion battery pack at MODEX 2020.

The [LiFT Pack S24](#) is the most energy-dense option for a clean, safe, and innovative lithium-ion battery pack to power walkie pallet jacks. Offered in a 24 V, 100 Ah configurations, it delivers:

- Highest capacity, safe lithium iron phosphate (LFP) battery in this footprint (22.9" x 4.0" x 24.6")
- No required maintenance
- IP 57 rating (submersible for 30 minutes)
- Modular design with customizable options for cable length, on-board charger, heater, and additional weight
- Easily serviceable when installed in equipment

The LiFT Pack S24 builds on our experience with over 4,000 Walkie LiFT Packs deployed in the field over the past 5 years,” said Sean Stone, Product Engineer. “With a smaller footprint, reduced weight, no required maintenance, and a robust Battery Management System (BMS) utilizing fewer parts and connecting cables, it’s the best choice for powering walkie pallet jacks that are used in demanding applications.”
