FLUX POWER

SkyBMS

SOLUTIONS FOR
Fleet Monitoring & Asset Management

ADVANCED ANALYTICS
Transform your raw data into actionable insights for optimal fleet performance.

CUSTOMIZABLE
Personalize your user-friendly dashboard to fit your fleet's specific needs.

REAL-TIME DATA
Monitor key metrics such as charge levels, temperature, and usage patterns effortlessly in real-time.

ACCESSIBLE FEATURES

PASSWORD PROTECTED

CLOUD BASED

WI-FI, CELLULAR, AND BLUETOOTH

PROPRIETARY SOFTWARE

SkyBMS Telematics Technology

DIMENSIONS

Height: 2.02"

Width: 4.46"

Length: 6.75"
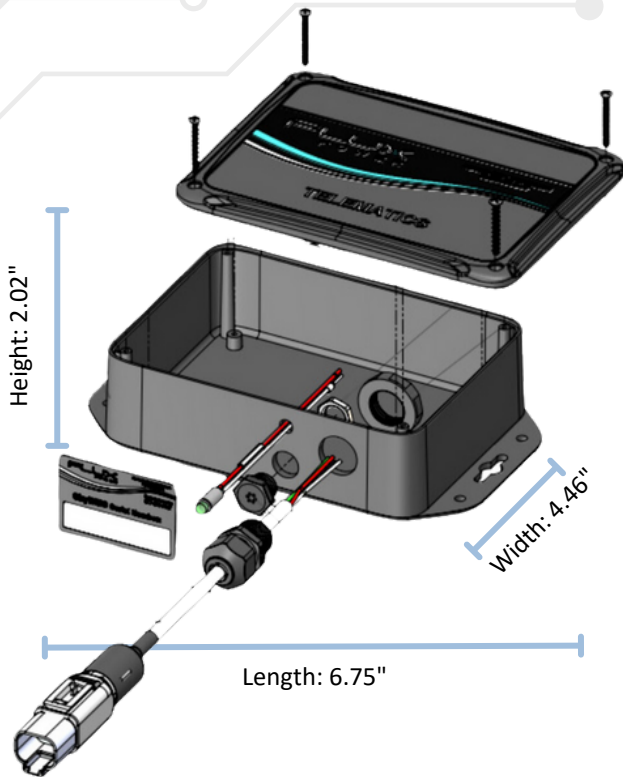

FULL INTEGRATION

- Identify usage patterns
- Summarize the amount of energy used
- Recognize potential improvements in operator behavior (e.g. charging habits)
- Generate custom alerts to notify multiple users of battery condition
- Allows ability to diagnose battery packs remotely
- Capability to send updates to battery to calibrate or optimize performance characteristics
- Data can be aggregated, allowing the fleet manager to identify over or under utilized batteries and optimize operator practices (Standard Event Report, Fleet Summary Report)

PROCESS

1. DATA COLLECTED & SENT TO TELEMATICS UNIT

2. DATA STORED IN PASSWORD PROTECTED CLOUD

3. DATA IS ACCESSIBLE TO USER
