

SCOPE:

“Design, manufacture, supply and support of lithium technology platforms for industrial and commercial equipment.”

QUALITY POLICY:

Flux Power’s primary goal is to lead the adoption of clean, safe, and innovative lithium technology platforms, while complying with customer, statutory, regulatory, and other requirements, by:

- ***Focusing on industrial and commercial energy solutions.***
- ***Delivering outstanding product performance, customer service, and value.***
- ***Earning a reputation as a trusted thought leader.***

Flux Power will use the framework provided by the ISO 9001: 2015 standard to monitor and measure our success in our commitment to quality by applying the following objectives:

- ***Maintaining focus on our core market segments, including Material Handling and Airport Ground Support Equipment while leveraging and developing our knowledge base to provide products optimized to customer needs.***
- ***Tracking a set of key performance indicators to demonstrate achievements and continuous improvement of our product and company deliverables.***
- ***Enabling our customers to operate at the next level, by delivering not only innovative lithium technology solutions but also showing technical leadership and integrity, through our team interactions and support documentation.***
