

JOB DESCRIPTION

Job Title: Warranty Technician Date Approved: 07/24/19
Job Classification: Hourly FLSA Status: Non-Exempt
Department: Warranty Reports To: Warranty Manager
Work Location: Vista, CA

FLUX POWER, INC.

Flux Power develops advanced lithium-ion batteries for industrial uses. Flux Power solutions utilize its proprietary battery management system (BMS) and in-house engineering and product design. Flux Power batteries deliver improved performance, extended cycle life and lower total cost of ownership than legacy lead-acid solutions. Flux Power sells primarily to lift equipment OEMs, their dealers and battery distributors. Current products include advanced battery packs for motive power in the lift equipment and airport ground support markets.

Job Summary:

We are looking for a Warranty Technician to help our growing team. The ideal candidate will be mechanically inclined and able to troubleshoot our products. The team works closely together to help improve our customer's experience. Up to 25% travel may be required.

Essential Duties and Responsibilities:

- Assemble parts from drawings to build battery packs, position, align, and fasten subassemblies, assemblies using hand and power tools.
- Troubleshoot battery packs and components for mechanical and electrical issues with limited supervision.
- Perform basic quality and functional tests of completed packs.
- Some rework, repair and minor fabrication will be required, to include but not limited to cleaning, soldering, harness updates, welding, etc.
- Maintain detailed service and warranty records, handwritten and data based.
- Perform routine daily cleanup.
- Team player, flexible, and eager to learn.
- Ability and willingness to accept other duties, responsibilities and activities as assigned.

Required Education and Skills:

- Minimum 3 years of mechanical / electrical assembly experience and or troubleshooting.
- Manufacturing, troubleshooting, and service experience, 3-plus years, and or 2-year degree or technical certificate.
- Valid driver's license.
- Knowledge of hand, power tools, and shop tools used in assembly and fabrication.
- Electrical assembly including, wiring, crimping, and soldering required.
- Mechanical assembly including some fabrication experience.
- Self-starter that is flexible, and versatile with the ability to suggest solutions and solve issues when problems arise.
- Able to lift at least 50-pounds.
- Welding experience is not required but a plus if able
