

*Come work as a Planner at a growing company that offers great benefits with opportunities to advance and learn alongside accomplished business leaders ... Become a part of our team!*

## **Get to Know Us**

Flux Power is a fast-paced, high-growth (40% YoY), publicly traded company (NASDAQ: FLUX) that is leading the adoption of lithium-ion technology solutions. We design, manufacture, and sell advanced lithium-ion battery packs that are disrupting the 100+ year old market for lead acid batteries. Our battery packs are used to power industrial and commercial equipment like forklifts and airport ground support equipment, as well as new applications like solar-powered EV charging stations.

## **About the Role**

The Planner will provide hands-on planning and scheduling support to the Businesses plant operations and Supply Chain functions. The efforts of the Planner will perpetuate cost effective production planning, maximum service performance, and optimal inventory control.

## **What you Will be Doing**

- Finished Goods Inventory plan that supports customer sales order and forecasted demand.
- Plan sub-assembly builds to meet Finished Goods build plan.
- Liaises with sales division to determine customer requirements.
- Set the purchasing workbenches for the purchasing team & work orders to the production team.
- Continuously evaluate and review the processes and systems of Planning and Scheduling, as well as the related processes and systems, and design/implement changes that increase efficiencies, improve performance, and reduce costs.
- Support, maintain, and create documented standard policies and procedures.
- Establish a collaborative working relationship with the production and supply chain personnel
- Provide rapid problem-solving solutions to the Supply Chain Manager regarding production planning, scheduling, replenishment and/or inventory control issues or problems arise.
- Achieve optimal inventory efficiencies and service performance to internal customers as well as external customers.
- Maintain a disciplined approach to achieving optimal planning and scheduling efficiency via effective application and execution of “Lean” planning and scheduling strategies, procedures, methods, and standards.
- Performs other related duties as assigned.

## **What you Will Need**

- Bachelor’s Degree in a related field.
- This position requires 1+ years of increasingly responsible planning and scheduling/supply chain/materials management preferably in manufacturing plant, entrenched Lean Manufacturing and/or Six Sigma management systems.
- Exceptional judgment and communication skills; compulsive regard and attention to/for detail.
- Instinctive ability to rapidly identify and define problems, collect data, establish facts, and draw valid conclusions and implement the appropriate action.
- APICS or CPSM (ISM) certification preferred but not required.

## **Other Duties**

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities, and activities may change at any time with or without notice.

## **What Can We Offer You for All Your Hard Work?**

### **Benefits**

- Medical, dental and vision insurance options
- 401K Plan with company match
- Life Insurance
- Paid Time Off
- Paid Holidays

### **COVID-19 Precaution(s)**

- Personal protective equipment provided or required
- Sanitizing, disinfecting, and cleaning procedures in place

We are committed to a safe, drug-free workplace by performing pre-employment background checks and substance testing.

### **Notes**

- No recruiters, contractors, or consultants, please.
- No relocation assistance or visa sponsorships available for this position.
